## Summer Session B 2018

Course: ECON 002 Section: B01 - INTRO TO MACROECONOMICS  
Instructor: Yoon Ro

**Question # 20:** Please comment on how the instructor's teaching helped your learning of the material in this course. Please give serious thought to your comments. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used in changing future offerings of the course. In addition, these comments are placed in the instructor's file and may be used for purposes of evaluating the instructor's teaching. The information collected will remain anonymous.

- The instructor always came very prepared and was nice with all the students. She made sure all the kids understood the information before moving on. Great professor.
- Professor Yoon is extremely approachable, kind, and helpful! She went above and beyond to make sure my needs were met and that I understood the material. The entire course was a great experience.
- Yoon was a good instructor. She would repeat confusing parts of the chapter we were in to drill it into our minds, which I found very helpful. She would always answer questions and I really appreciated her style of lecturing, because it was interactive as she would write on the board. In this way, the pace of the class was smooth.
- The instructor was great in utilizing the class time to teach both the conceptual and mathematical aspect of the course. She also was fair in both her grading as well as the establishing the difficulty level of the exam questions. She paid attention to the students' progress with the course material and their understanding of it, and provided a well-structured explanation about all the topics covered in class. Also, she was friendly and approachable during class as well as during office hours. I had an enjoyable experience attending the class.
- She was able to give different examples of companies and of things we wouldn't necessarily think would have any economic ties to convey the topic to us, because of it I am able to think broader when it comes to economics. Thank you, Ms.Ro
- I want the instructor to have more extra credit opportunity for students that are struggling in the class and to boost up their grade.
- The instructor was fair and over all a decent professor. The material was well taught and simplified. The slides with graphs should however be detailed in the slide shows so that people are sure of how they work and look. Other than that the class was a good experience.
- Great teaching! Was very understandable when I had a incident the night before my final, she was able to reassure me that I will be able to pass the class if I passed the final.
